

Automatic Withdrawal Policy

- Guthrie Center Municipal Utilities can set up accounts for automatic withdrawal at any time.
- Any current GCMU account may apply for automatic withdrawals. Accounts applying for automatic withdrawals must be paid in full before automatic withdrawals can begin.
- The amount automatically withdrawn from your bank account is the balance due on your utility bill. These amounts vary from month to month and will be the same figure as printed on each monthly bill.
- All automatic withdrawal accounts **will have funds withdrawn from your bank account on the 20th of the month.**
- **If an automatic withdrawal account has more than one insufficient payment (NSF) against the account the automatic withdrawal will be discontinued and the customer will have to go to a cash only payment status for the next twelve (12) months.**

I have read the automatic withdrawal policy and understand the terms stated by Guthrie Center Municipal Utility.
